Kindergarten

In our FLVS Flex Kindergarten option we offer 5 core subjects taught through a blended model. Your student will be enrolled in our Language Arts/Social Studies and Math/Science/technology courses. The foundation of our program are our ClassTime, live lessons taught by your teacher.

4. Review course details.

1st-Grade Overview

Language Arts and Social Studies

This course blends learning environments to optimize the student's experience. Through individualized instruction in an online Language Arts program and participation in virtual class meetings, the student will strengthen skills and reach proficiency in this personalized

and collaborative teaching model. By experiencing the inter-relatedness of Language Arts and social studies, students learn to transfer learning across subjects. They explore essential Language Arts and writing skills while learning about their world as they delve into the basics of economics, responsible citizenry, and the similarities and differences between people in our communities.

Math, Science, and Technology

This course blends learning environments to optimize the student's experience. Through individualized instruction in online math and science programs and participation in virtual class meetings, the student will strengthen skills and reach proficiency in this personalized

and collaborative teaching model. Integrating math, science, and technology offers the student an opportunity to experience learning as a meaningful whole. Students begin skill work with numbers 0-20, shapes, and measurement, as they explore the world of mathematics through the science curriculum which includes the study of the five senses, properties of matter, gravity, forces of motion, and plants and animals.
